

Certificate IV in Workplace Health and Safety

"I have a lot of experience but this helped develop my cognitive thinking and leadership skills."

About the course

This BSB41415 Certificate IV in Workplace Health and Safety is designed for people in leadership positions or those who give guidance to others. The qualification reflects workers who apply a broad knowledge base and well developed skills in a variety of contexts.

Duration: This course will be delivered through Recognition of Prior Learning. Our website can give you more details of how your experience will be assessed.

This course includes

- Assisting with compliance with Workplace Health and Safety laws
- Ensuring workplace procedures, systems and processes are implemented and managed
- Contributing to Health and Safety monitoring and introduction of initiatives

Entry requirements

Students will need suitable Language, Literacy and Numeracy (LLN) skills to complete the qualification.

The student should also have work/life experience relevant to the course units.

Where to from here?

Job prospects from this qualification include progression to management or professional senior roles. The construction industry and public safety sectors are popular pathways though the qualification is relevant across many industries.
