

**Congratulations  
on starting work!**

We've got you covered.

Delivered by  
**max**.EMPLOYMENT

## You got the job!

It's important to have a plan around your first few days or weeks. Make sure you have everything you need. Do you need a uniform? Have you got your paperwork? Do you know your employers expectations? We can be there with you on your first day to make sure things go smoothly.

## Getting settled in

We want to give you the level of support you need. Regular catch ups can help you work out any issues or concerns you might have. It might be how you're settling in with your new employer and colleagues or more practical things like pay, taking leave or transport issues. If you have changes to your health or personal life, we can link you with our dedicated health team or other community assistance.

**On your first day make  
sure you've got these  
things covered:**

When do you start

Who to speak to

Where to go

How will you get there

## Working with your employer

By working closely with your employer, we can make sure they understand how they can help things go smoothly for you. There might be support they need to help understand what your needs are. If you need modifications to your new workplace, we can guide your employer to access funding for this. If you think your employer should be aware of anything, let us know so we can talk to your employer.

## Thinking about the future

Once you're comfortable in your new role, you might want to think about the future. There might be new skills you want to learn or you might want to start planning what to do next. We can guide you through this and will talk to you about careers or learning.

## Good News!

We will continue to support you with starting work and the extra costs you will need to cover.\*

\*Terms and Conditions apply.

For full details please see [maxsolutions.com.au](https://maxsolutions.com.au)
